

**BREAKAWAY FOAM PACKING**

5

ABSTRACT OF THE DISCLOSURE

Breakaway foam packing is disclosed. In one aspect,  
the present disclosure teaches a breakaway packing system  
for packaging an information handling system including a  
10 packing support designed to receive at least a portion of  
an information handling system. The packing support  
secures the information handling system within a shipping  
container. The breakaway packing system also includes at  
least one detachable joint formed in the packing support.  
15 The detachable joint operably detachable to cause the  
packing support to separate into sections.
